

Curriculum

The curriculum is designed as per the guidelines laid down by the Central Board of Secondary Education. The Pre-Primary curriculum is designed by the school. It is a blend of cognitive, affective and psychomotor domains. It caters to the complete personality development of a child.

Various styles of teaching are adopted to deliver the curriculum. Group work, group discussion, project work, field trips, etc are implemented to make the curriculum interesting and meaningful. Teaching is made fun and frolic at the pre-primary and primary levels adopting the child friendly methods of learning.

Our aim is to make children independent in organizing aspects of their learning. We teach them to take responsibility for organizing their studies, spending quality time in regular physical exercise and prayer.

Latest technology is used in imparting the pedagogy in our classrooms. The use of smart boards, digital boards and E-library makes the understanding of various topics and concepts lucid and interesting.

Our curriculum emphasizes on value education and life skills. These aspects are taught through our regular lessons in all the subjects and daily school assembly.

Language Development

The acquisition of Language is at the heart of all learning. Children are taught the skills of communication through listening, speaking, reading and writing. A strong foundation of basic and advance language competencies is imparted from vivid day today experiences.

Joy of Mathematics

Mathematics is taught through learning by doing. Children are made to love and enjoy the subject in a creative way by providing them a wide range of mathematical activities.

EVS, Science and Humanities

To promote scientific enquiry, problem solving, logical thinking, love for nature, global understanding, cherishing of our heritage, etc. children work through a series of topics. We also make use of the local environment and travel further afield for nature trails, etc.

Physical Education

Our curriculum promotes a sound mind in a sound body. Physical education makes children fit and sound. To cater to the needs of sports school provides excellent playground and exposure to various active sports and games. Good facilities are also provided for indoor games. Children and adolescents have so much of physical energy and when they are involved in sports, their physical energies are used in a constructive way. Sports inculcate valuable qualities in children. It infuses discipline, co-operation and team work among children.

Computer Education

Children are exposed to latest technology through computer education, E-Library and digital boards. Computer education is imparted from Grade I onwards. There are separate computer laboratories for Primary and Secondary classes.

Aesthetic Subjects

School promotes imagination, creativity and novelty. These skills are developed through Drawing, Craft and Music. These subjects create aesthetic sense and promote love for nature among children. These artistic activities give children an outlet for careful observation and concentration. These skills promote self confidence and self esteem of children.

Home Assignments

School creates an interest in children by giving them creative after school activities. Children are given exciting home assignments which make them explore, interact and learn. Home assignments are creative, innovative and useful. Such home assignments promote scientific temper, power of observation, healthy habit of reading, interaction and interest in the subject.

Beyond Academics

Co-curricular Activities are an integral part of the school curriculum. Activities such as classical dance, public speaking, dramatics, creative writing, reading books, etc. provide healthy recreation to the child.

Special Activities

Special days and weeks like Food Days, Colour Days, Environment Week, Nutrition Week, Dental Care Week, etc are observed in school. These activities promote awareness and all round development of children.

Special Activities

Special activities like Chess, Folk Dance, Aerobics, Skating, Karate, etc are organized to do away with the fatigue of scholastic subjects. Child has to choose any one of the activities from the given options.
